Dear Igor,

1. That's great that you and Scott are thinking about the N-Z conjecture, or rather question, since if I had to bet about it now, I would give only a %50 chance.

There was never money offered (as far as I can remember, if you find such an offer in my writing, please let me know), but I am hereby pledging a \$100 donation to the OEIS in honor of the provers or disprovers.

2. [..]

3. I really like your disproof of the Kontsevich conjecture!

Best wishes,

Doron

Dear Doron,

My student Scott Garrabrant and I have been thinking about the Noonan-Zeilberger conjecture for a while now, ever since September when we talked. Could you please remind me - are there any money at stake for it? And if yes, would you be paying only for the proof, disproof or both? [..] Many thanks, -- Igor
